APPLICATION NUMBER : 59023288

APPLICANT : MITSUBISHI ELECTRIC CORP;

INVENTOR : ITAYA YOSHIYUKI;

INT.CL. : H02K 5/132

TITLE : CANNED MOTOR AND
MANUFACTURE THEREOF

ABSTRACT : PURPOSE: To facilitate the inserting work of a can, by forming a shape to insert a counter load side bracket from a load side opening of the can.

CONSTITUTION: The interior face against the coil end of the counter load side of a frame unit 5 molded by molding material to mold a stator 1 is formed with small diameter, and a can 4 is formed so that the diameter of one end against the coil end of the counter load side may be smaller than the diameter of other end including a part against the interior face of the stator 1, and the can 4 is inserted from the load side of the frame unit 5. Then, water sealing material 8 is jointed to the interior face with a given interval between the counter load side of the can 4 and the load side.
